

WHO SHOULD ATTEND?

The course and assessment center will be useful for new and experienced health care professionals involved with clinical education. While the information presented covers the basic skills for clinical instructors, the interactive tasks and large and small group discussions will be of benefit even to experienced clinical educators.

CEUs from this course may apply towards new Calif License renewal requirements.

Members of professions other than PT who attend will receive CEUs and a certificate of completion, but may not complete the assessment center or receive the credential.

COURSE OBJECTIVES

At the conclusion of the program, the participant will be able to:

- Identify roles and responsibilities of CIs
- Assess a student's readiness to learn
- Plan clinical learning experiences
- Evaluate student performance
- Demonstrate skills to manage the exceptional student
- Discuss legal issues in clinical education

PRESENTS THE

APTA CLINICAL INSTRUCTOR EDUCATION AND CREDENTIALING PROGRAM

Stanford Medicine
Outpatient Center

Redwood City, CA

May 22-23,
2010

COURSE DESCRIPTION

This program is recognized by the American Physical Therapy Association (APTA) as a Clinical Instructor (CI) Education and Credentialing Program. The program was developed through a grant funded by APTA.

- The program addresses issues of planning and preparing for students from the health care disciplines during their clinical education experiences; developing learning experiences and supporting ongoing learning through questioning and effective feedback. Skills of evaluation are discussed, as well as the identification and management of students with exceptional situations. The program closes with a brief look at legal implications for clinical educators, including issues presented by ADA legislation.
- The "Assessment Center" provides each participant with the opportunity to apply information from the program in simulated situations. Successful completion of each station in the Assessment Center results in the awarding of APTA's CI Credential. The six assessment center stations are integrated into the program schedule.

It is essential that each participant attend all sessions of the course and assessment center in its entirety in order to receive the credential.

Course Schedule

Saturday May 22, 2010

8:00 Registration
8:30 Workshop begins
The Clinician as Clinical Educator
Determining Readiness to Learn
Facilitating Learning in the Clinical Environment
